

Virtual Communication- Match the App!

Recently, individuals have been inundated with software apps and services that they never knew existed. Is this happening to you? Did the closure of your school force you to learn and use a new application that you were not familiar with? No worries!

- Below are 12 programs that you may have never known existed pre-COVID-19. See if you can match the app to the function.
- Cut out the descriptions of the apps. Glue or tape the description next to the correct app.

 **BONUS!** What new app have you learned about that helps you be more productive? We would love to know even if it is not one listed here! Share it with us @wowyouthprogram !

1.		G Free web service for schools, simplifies creating, distributing, & grading assignments; paperless; streamlines the process of sharing files between teachers and students
2.		K Online video creation & editing platform; includes meme maker, trimmer, looper, & filters; make stop motions, share highlights, or resize Instagram Stories.
3.		J Resource for learning new languages; combines listening & reading activities, built-in reviews; encourages learner to explore topics within the language they are learning.
4.		L Online/mobile courses built around quiz styled lessons; users are shown new material (grammar, vocabulary, etc.), questions asked throughout lesson to reinforce new information
5.		H Web-based video conferencing tool; desktop & mobile app allows users to meet online with or without video; users record sessions, collaborate on projects, & share or annotate on each other's screens.
6.		D Allows multiple people to communicate on projects from afar; using channels, one can organize conversations, & only be involved in project conversations relevant to them
7.		A Make free video, voice one-to-one & group calls; send instant messages and share files with other people; mobile, computer, tablet
8.		C Individuals prepare & explore careers by participating in the vast selection of industry chats featuring professionals in their workplace.
9.		E Digital document: all components of learning cycle pulled together into one central hub; in a single document users provided with links to all resources needed to complete learning cycle
10.		I Message friends, start free video or voice calls, & hop on conversations with one person or a group
11.		B Desktop app or extension; users record their camera & screen with audio; download video, embed it on blog, share it via social media or email etc.
12.		F Users take virtual courses for professional development, learn technology skills, & study for standardized tests; huge learning library.

Now that you have matched the app to a description check your answer to see if you were correct!
